WILL the next President be a Republican? A Democrat? Or a What-not? Now I don't care a flip from what party or what state he hales only let the best man with the best men back of him win out. But when it comes to breeding horses I say breed the Morgan horse. Why? Because I know that there is no better horse on earth for the farmer to raise than the up-to-date Morgan. The U. S. Government have, after much study, come to this same conclusion and are breeding them for cavalry purposes and I predict that in 5 years there will be a great call for them at good sound prices. Before you breed your mares this year I want you to see my stallion.

LAMBERT CHIMES

Registered in the American Morgan Register—Standard Bred and Standard Perfect. He has the four fundamental requirements in Morgan creation—Symmetry, substance, temperament and action—and to an extraordinary extent he stamps his image and impresses his qualities upon his descendants. I consider him far and away the best stock horse I ever owned.

Spring and Summer Clothes

For Men and Boys

Now Ready for Your Selection

When you come to see us about clothes for this season—we hope to see you before long—you're certain to be impressed with several things about our store and our goods—and whether you buy your clothes here or somewhere else, we want you to know these things about us.

Good clothes are something men need. One of the things we want to tell you is that we appreciate how much it means to most of you to get good clothes—to get value for the money—to receive, when you buy, goods that are worth while.

We have some knowledge about these things—it's natural that we should use that knowledge in your interest—there's no reason why we shouldn't use it to your interest.

The result of so employing our knowledge of good clothes is a big stock of Hart Schaffner & Marx fine suits and overcoats. We mention these particularly because we know they're fine clothes—because they're perfect in style, in quality of materials, in tailoring. If we didn't think so we'd find clothes we did think so about.

STYLES THAT STAY STYLISH

You men who want stylish clothes—you who are so particular about distinction of fashion—you who look for long service as well as style, you young men who want lively patterns and colors, you men of conservative ideas who want the more dignified models—better be sure you haven't neglected the little thing back of style or underneath the appearance. Being particular about style is a good thing—be particular. But if your clothes are half cotton, and cheaply tailored, where's your style and appearance going to be after a few weeks' wear?

Just think that over. We'll give you style all to the good—but better have style that stays stylish. From \$12 and up for our new spring suits and overcoats—the strictly Hart Schaffner & Marx models from \$20 to \$30—and worth it.
